Earth Citizen Passport. Every man, woman, and the child is the Citizen of our Planet, diverse and precious mosaic of colors, languages, religions, ethnicity, diversity, unity within multiplicity, I desire to emphasize.

Respected Members at the United Nations, please establish the ***Earth Citizen Passport***. It's time to recognize our origin within the Universe, yet, beyond as well, divers global fabric, and the same time emphasizing diversity in unity. Human came from stars now is going back to stars, man is searching distant galaxies, Universal phenomenons, man is searching for answers but all answers are within man.

Space exploration reflects the accomplishments of generations, scientists, philosophers, inventors, thinkers and dreamers, yet, the accomplishments of the whole society, including prominent members as well as multitudes we never heard about.

Our Universal dream is alive and vibrant, yet, thriving to benefit all men, as well as to animate the quest enriching humanity with a new experiences, and a progression toward self-exploration, because our search for answers and meaning begins within self.

Man came from stars and will return to stars…

The Earth Citizen Passport reflects truly miraculous mosaic of unity toward perfection, expanding awareness, unity within diversity among nations, races, religions, yet, a deep desire within common destiny, the destiny of the Universal Man, and the welfare of all people.

Man is, de facto, the Blueprint of the Universe, as we know it, man is encapsulated in Solar System, Milky Way, and yet, is ingrained in science, art, nature, organic Universe, and yet, man projects unlimited potential, potency of the future.

Is there a greater privilege, I ask, than to be the Citizen of the Great Planet Earth.

Best Regards,
Marek "Mark" J. Wagner

P.S.
The Citizens of Earth, please accept the genuine image of self, as a visionary, ethically sophisticated, potent universal beings. Human has its purpose, the Universal desire with regard to moral, and scientific perfection, through a progression of ethical code, yet, an ability to establish Universal Unity, by promoting humility and vision toward common progress, through science, as well as senses, perception, attitudes, which reach beyond a tangible language of perception.
